In the last releases we presented New York and Berlin. After these major cities we are now proud to present Vol. Features 3D - Cockpit with rotatable camera Original virtual reproductions of 35 stations on the Circle Line Free movement in the train and at the stations (Q: Can Apache ignite connect to regions on different Zookeeper clusters? I have two ignite clusters. The first one is running at cluster-1.2.3.4.zk4:2181 and the second one is running at cluster-1.2.3.4.zk5:2181 Cluster-2 has a fixed interval and refreshes the data from cluster-1 by default. What would happen if I reset the second cluster to cluster-1 and then the data would be updated? I mean to say that cluster-2 connects to region-1, in which the cache is at cluster-1. Do I have any chance to have cluster-2 connect to region-2, in which the cache is at cluster-2? A: Yes - it is possible - but the regions must be hosted on the same ZooKeeper cluster. Take a look at the API You can specify the list of clusters to connect to from. See the example here.
